- Activities and location of your choice!

## DESCRIPTION

We develop **tailor-made multi-activity programs**, designed according to the group, the intended objectives, and the chosen location. Activities can take place in **locations previously defined by us**, where there is consolidated operational experience, **or in locations indicated by you**, the client, subject to technical validation.

Each program is a **balanced set of adventure and nature challenges**, combined between us and the client, ensuring that the activities fit the available space and provide a dynamic, safe, and engaging experience. These programs are **suitable for groups of different ages and profiles**, and can be carried out in **half-day or full-day formats**.

The multi-activity program **usually integrates a combination of experiences** such as **climbing, abseiling, zip-lining or rope bridges, canoeing, target shooting**, and other progression and cooperation challenges, and may also include **traditional games**, always in an adaptable way.

We typically offer options in **natural environments of great scenic impact**, such as rocky gorges and enclosed valleys, providing not only physical and strategic challenges, but also direct contact with nature and the surrounding territory.
